Plenty More Club

American Heart
Association® 
Learn and Live™

Coach Paul “Bear” Bryant once said,

“There are going to be days
when you think you’ve got no more to give,
and then you are going to give plenty more.”

In this spirit, we invite you to support the mission of the American Heart Association with a 100% tax-deductible gift to the *Plenty More Club*.

The American Heart Association is the nation’s largest voluntary nonprofit, dedicated to reducing death and disability from cardiovascular diseases and stroke through research, education, and advocacy programs.

Thanks to the efforts of the AHA and its volunteers in the past 60 years, the AHA has had a hand in nearly every major development in the treatment of cardiovascular diseases and stroke: examples include CPR, bypass surgery, and pacemakers. Survivors are living longer, stronger lives due to advances in prevention and treatment.

The American Heart Association has invested more than \$2.6 billion in research since 1949—and more than \$1 billion in the past 10 years alone. The organization dedicates more monies to research than any other voluntary health organization; only the federal government funds more cardiovascular research. The American Heart Association also funds various educational and advocacy programs, aimed at increasing awareness of how Americans can take charge of their heart health.

Coach Bryant's legacy lives on with the impact of the American Heart Association's mission: building healthier lives, free of cardiovascular diseases and stroke.

Be a part of something bigger.

Be a part of Team Bryant in the fight against heart disease and stroke.
